THE WIMAN SCANDAL

The Toronto Globe says, in its issue of September 30th: "The Toronto Board of Trade is still agitated over Mr. Wiman's appointment as its representative to the Congress of Chambers of Commerce. One of the members of the Board was a strongly opposed to the selection of Mr. Wiman as delegate to London, and it seems as if he was instrumental in securing his election at the congress. It will be remembered that Mr. Wiman was previously refused a hearing, on the ground that his credit as a man was under suspicion. There can be no question but that Mr. Wiman is well qualified for a discussion of the trade question, and at his view would have had both interest and instruction for the congress. But it is a fact that Mr. Wiman is a man of no great reputation, and that his selection as a delegate to the congress is a disgrace to the Board of Trade. Mr. Wiman is well known to the members of the Board of Trade, and his selection as a delegate to the congress is a disgrace to the Board of Trade. Mr. Wiman is well known to the members of the Board of Trade, and his selection as a delegate to the congress is a disgrace to the Board of Trade."

A Second Growth.

We were to-day shown by Mr. S. Burton

of this city, some precious stones, some

beauty, both of which were from seed which

he had raised this summer. What other

cultivator has a more fruitful soil or a more

gentle climate?

Beautiful Medals.

The two gold medals which were won by

L. Lockie, and the silver medals which

were won by E. Roy and by Vanquish at

the fair, were beautiful in design. They

were manufactured at the Allan McNeil

establishment in this city.

His Little Girl; or, Worked Out.

The poor little outcast was crying; a tear rolling down his cheek, but he wiped it away, lest it should fall upon her and make her, following the light touch of his hand, as it was stirred a little in her sleep, and he drew behind the curtain. He waited a few moments, then without venturing to touch her again, he stole away into the night. Early the next morning Mrs. Montrose came to Mr. Ellinger's room with a letter. She looked grave and anxious.

"Mother," she had written to her, begging her to be the bearer of a letter to his daughter, and to break the news of his departure.

"How is my father?" asked Ellinger. "Has John been kind to you?"

"Your father has been called away suddenly on business, dear child. He has written to me, telling me to tell you that he is still alive."

Matthew Ellinger, in writing for the last time to his daughter, had characteristically avoided much self-expression.

He spoke of his absence as necessary for her own well-being, and begged her to be the bearer of a letter to his daughter, and to break the news of his departure.

Ellinger read the words in silence. She felt that some heavy blow had fallen, as though she had been struck by lightning.

Her father had already formed his plans and she knew that she could do nothing to alter them. She felt that she was being deceived.

She felt that she was being deceived. She felt that she was being deceived. She felt that she was being deceived.

Preferential Trade.

Preferential trade properly consists in giving the preference to British Goods. Bitterness for foreign goods, for example, dyspepsia, headache, biliousness, jaundice, scurvy, polypus, hemorrhoids, bed sores, rheumatism or kidney complaint. It is the true cure, and has cured cases which had resisted all other treatment.

Forwarded to the Editor.

Many of the worst attacks of cholera, morbus, dysentery, colic, etc., come suddenly in the night, and are very prompt means must be used against them. For a Fowler's extract of Wild Strawberry is the remedy. Keep it always at hand for emergencies. It never fails to cure or relieve.

Mrs. Collette Cline, Syracuse, N. Y., writes: "For years I could not eat any kind of food without producing a burning, excruciating pain in my stomach. I took Fowler's Extract of Wild Strawberry, and it cured me. I am now at anything I choose, without distressing me in the least. These pills do not cause pain or griping, and stand in the place of a cathartic."

Parasitic life—When a carpenter goes on a strike he never uses his hammer. Fowler's Worm Expeller is the same in destroying worms in children and adults. See that you get the genuine when purchasing.

RELEVANCE, THURSDAY OCT 6

HARD UP.

A number of Conservative papers are doing the Minister of Militia the most unkind thing now. There would be nothing strange in the tribute to Mr. Bowell's genial and frank disposition were it not extended to his political views, and some political agitators are in a hurry to put him forward as a candidate for the Premiership. He would certainly be more acceptable as leader of the Opposition than as a Minister. He is more at ease than Mr. Meredith, and is more entitled to the honor—Owen, Oct. 6.

The Grid grid comes next to be at their wits' end for a sensation when they profess to see, in the congratulations extended to the Minister of Militia on his completion of twenty-five years in Parliament and fourteen years in the Ministry, an attempt to "put him forward as a candidate for the Premiership."

Mr. Bowell would no doubt make an excellent Premier; but that exalted position is not at present vacant, and he does not live that the Minister of Militia has any ambition in that direction.

No doubt the good gentleman will be flattered to a certain extent by the kind-ly things published regarding him by a journal, which, when it is a mere "social stamp," time brings its ravages.

It is beyond all doubt that "Myrie
Navy" is the favorite tobacco with the
smokers of Canada. They obtain more en-
joyment from it than from any other to-
bacco made and those of them who have
used it long enough to test its merits will
abandon it for any other brand. The rea-
son for this preference is the fact that "Myrie
Navy" is made of the very finest leaf which
is grown and that in every process of its
manufacture the most rigid care is exer-
cised to preserve the genuine aroma of the
leaf.

WOMAN'S MISSIONARY SOCIETY

Tenth Annual Meeting of the Cen-
tral Branch.

The Financial Statement Presented by the
Treasurer, The Rev. J. H. H. H.

Wednesday afternoon.

The afternoon session commenced at 2
o'clock, Mrs. Williams, President, in the
chair. After calling the President offered
prayer.

The minutes of the morning session were
read.

A letter was read from Mrs. (R.)
Young, expressing her sympathy in the
work. The letter also referred to Mrs.
Bart, who is a missionary in Japan.

A letter was also read from Mrs. W.
Mott, 2nd Vice President of the Branch,
who, owing to illness, was unable to attend.

A number of reports were presented from
auxiliaries, all of which spoke of the work
being done at the increased interest which
was being taken in the work.

The organization of the various districts all
presented their reports, which showed
that the number of auxiliaries were increas-
ing, also the membership.

A free parliament was held, conducted
by Mrs. Croft, of the Sherburne street
church, Toronto. It consisted in asking
and answering of the methods of conduct-
ing the work of the auxiliaries. This pro-
ceeded to a very profitable and interesting
portion of the exercise.

Miss Wilkes, Treasurer of the Branch,
presented her annual report, of which the
following is a synopsis:

Our F.M. Writer of a Recent Visit

Winipeg. The Farmers' Co-op. Winipeg
Industrial Association. Winipeg. The
Winipeg. A Great Fight for Winipeg
Winipeg. A Great Fight for Winipeg

To the Editor of the Intelligencer.

The Northern Pacific is doing a great
deal for Winipeg. Certainly that company,
which numbers in its employ, interesting
to some men in a district, would
have been much more money in the city
if they did not consider its future was well
secured. Many think the Hudson Bay
Railroad will do very much for Manitoba,
and at the same time injuriously affect the
O.R. Freight of wheat to Liverpool will
be much less by that line than by the G.P.
If wheat can be carried over a short
distance in Hudson Bay, it will raise
prices of that cereal in Manitoba.
What is wanted in Manitoba is a land
railroad, not a stock but a horse to take
of what of last year's crop still unthreshed.
Men were offered fifty \$50 per month and
board, often \$2 per day was given. Of
course in winter there is no employment
to leave the country at the approach of
winter. The winter is a dreary period to
the farmer—no stock but his horse to take
care of, very little wood to be got in. Time
hangs heavily on his hands and he does not
feel like working. The employment or
amusement in the evenings. They have
bills and socials occasionally, but in the
evening sessions, the distances are too
great for many to meet for an evening's
entertainment. In Winipeg, Fort Rensselaer
and the Hudson Bay reserve near Gougen
house, are the localities most sought
for building purposes. The city is solid-
ifying, vacant spaces built upon. It is
marvellous to see the numbers of new
buildings springing up everywhere. Three
or four years ago there were many vacan-
cies on this visit I did not notice one un-
occupied house. Generally people speak
of Winipeg as a good point for investment.
I did not see even one of the genus croaker
with dilapidated face, and fustian aspect, run-
ning down the city. Every one was hope-
ful and confident in the great destiny await-
ing them. To say one having lots, I would
say sold them, prices have not yet reached
their highest point.

As we spread over the prairie, over the
rich untilled lands surrounding Winipeg,
in vain speculators offer these lands at
low figures, people will not buy. Why do
they not simply because they are afraid
they are low and wet. These fertile
lands of good land, and it does not require
a prairie fire to learn them. Any one
can tell good land by simply observing whether
it bears the wolf, rabbit, and plenty of
prairie weeds; he ought also to suspect
whether the soil is good; these crops are
burrow to a great depth, and throw on the
surface quantities of earth. If this earth is
suspicious, the soil is bad. These crops are
certain. Of course if the earth has white
substances mixed with it it shows alkali,
and should be rejected. These crops are
quite little; when started, they stand on
their hind legs, erect and stately—
then down they go head first, only to come
up in an instant to have another look. They
are farmers' pests, because they steal wheat.
They have their enemies—having them
as they circle on poked wing in the clear
air, and closing their wings about down upon
the unsuspecting crops, and carry them
away in their talons. The gopher occasionally
bites, and then he is dropped to the ground
from a great height and killed. A
most terrible enemy is the badger. The
number of badgers on a section must be
very great. These creatures live on gophers.
If they spy a gopher running down his hole
they proceed to dig him out—and as the
badger dig much faster than the gopher,
the race is usually a short one. Badgers
will not run from man or dog; they will not
be shot, but you can kill them if you will
shoot, and make such little battle that they
are lucky to escape without severe blows.
The gopher cannot come a badger. Their
skins are worth a dollar each. The holes
they make are from 6 to 8 inches in diam-
eter, and at any one place are not all particu-
larly where they take them, you have to be careful
in driving, lest your horse step into one and
run himself. They destroy prairie chickens
and eggs, but they do not eat wheat—
so are encouraged by the farmers.
Brandon has a beautiful agricultural
country about it. The city is growing
rapidly, many think more rapidly than
Winipeg. It grows in city and in the
west. On a Saturday night there is nearly
as much stir as on Belleville streets. Hotels
are crowded and proprietors are getting
tired. Rents are very high—about
three cents as high as in this city. Hotels
bring large sums. Every man carries
about \$10 per day, and grow fat and con-
sequently grow fat. The difference between
those who grow fat and those who grow
thinly lean. The Belleville people have all
other, and are not so fat. The Belleville
business transacted in the grain season is
immense. I like the situation of Brandon.
The river runs from the city in a very fine
line. The city slopes to the river, and the
river rises in a beautiful curve to the height
of the land. The government is building an
asylum, and has an experimental farm.
The land is fertile, although not so rich as
that of the west, but it is fertile. The fact
that the best and most productive land in
Manitoba is in the vicinity of Portage la
Prairie. I had never visited Brandon,
Manitoba, and on this occasion drove 67
miles in a day over some of the loveliest
country in the Northwest.

I reached a point on the Souris river not
far from Estevan, the new coal emporium.
Recently the O.R. gave an exhaustive ac-
count of this El Dorado. It will not say
much about it, save that it has coal and
oil of high order. The city is dotted
with even greater value than the coal. The city
is a month old, and its population must
reach 1,000. Coal crops out on the Souris
in many places, so that the people of Win-
ipeg and Manitoba will buy their coal for a
long time. No. 1. I saw half way between
Oakley and Edmonton, there is a bluff of
red earth fifty feet high on the river.
By comparison with the country at Portage
la Prairie is very like Ontario. Grass every-
where, and during all seasons—stock can
feed on the grass all winter.

The course of the whole North West was
the fresh. Few perennials everywhere.
People will declare and declare there is no
front in their localities—believe it not,
there is. Another fearful falsehood about
about the country. People tell you that
they will tell you the truth, they will tell

BECKVILLE, MONDAY, OCT. 10

THAT SING.

A long time has passed since Mr. Graham asked the Council to grant him a license to sell his factory. Mr. Graham has spent a large sum on buildings in the city, and it is his intention to extend his business. It should be the duty of the Council to foster our present factories in such a way that they would be encouraged to grow; instead of which they appear as if a check had been found against this apparently reasonable request. If we are informed again, Mr. Graham has purchased a couple of buildings that would be depreciated in value by the siding, and has, as well, offered in free use of such up-to-date machinery as he feels it necessary.

SELF-COMFUTED.

The *Halifax Herald* forcibly remarks that the Ottawa *Star* now sends out to the papers that he had published his invention of the "Horse" charge. Mr. Graham has been "ground" by the Ottawa *Star* for the invention of the "Horse" charge. This will be astounding news to those Ottawa readers that have been told over and over again during the past few months that "the Horse" charge had been so mutilated in their reference to the Royal Commission that in their present shape they could not be proved, and that the Government had no "Horse" charge. The investigation was nothing more than a farce. Yet after having had this kind of rubbish dinned into their ears every week day for several weeks, they are now asked to believe that "the Horse" charge had been "ground" by the Ottawa *Star* for the invention of the "Horse" charge. The length of time he will stick to that he depends on the number of variations it is capable of. When he has said "Horse" charge, he has said "Horse" charge. He will invent another.

"VALUED TREASURE."

The Montreal *Herald* still persists in its foolishness about the case on British connections of Canadian independence. Its latest assumption had to be that the British end and enlarged, so as to admit as great vessels to the upper lake, at the joint expense of the Governments of Canada and the United States, and to execute a treaty giving equal rights to the sailing vessels of the same to vessels of both countries in perpetuity, thus constituting the United States, co-partners and joint proprietors in those great works which have been constructed at a cost to the people of Canada of many millions of dollars, while all they would contribute to the joint property would be the shore place of canal at South Bay, and the comparatively inexpensive works at the St. John's Falls, much of which is claimed to be on Canadian soil. The *Herald* is now the latest in the line of the "Horse" charge. The *Herald* is now the latest in the line of the "Horse" charge. The *Herald* is now the latest in the line of the "Horse" charge.

What the leaders of the Grit party who advocate unwarranted reciprocity have in view as the ultimate result of the "Horse" charge is annexation. The Hon. Edward Blake separated from them for that reason and so declared in his famous letter of farewell to his constituents of West Durham. That Mr. Blake still holds the same opinion is evidenced by his statement at the meeting at his house at Toronto. "The objection 'has been made to my course,' he said, 'that every man owes a first duty to his own land, and I should, instead of going to England, have taken part in the life of Canada. I wholly agree as to the first duty of every citizen of a country to his own land, and I hope that in the earlier years and under more fortunate circumstances I have shown myself to be not altogether neglectful of that duty. My own country is not a land so good for me, and I am going to her service while I could. It is a duty which I feel it is needless to deny. I directed me from that service, and after full consideration I had come to the conclusion that the time must either settle or eliminate the difference of opinion which 'reigned between me and those with whom I stand.'"

The *Globe* and *Signal*, a Grit-annexationist journal, is disgusted with the hypocrisy of the party leaders, and soundly berates them therefor as follows:

We have lost faith in the ability of any Grit to do any good, to obtain a treaty of reciprocity which would not be a mutilated treaty, to obtain the United States, and we think the sooner the Reform leaders break with the party and declare their policy to be non-annexationist, the better. The subject, the better for looking at the policy is a profitable occupation. We want to see the Reform leaders take the people into their confidence, and give such evidence of good will that a full measure of reciprocity with the United States is obtainable. The people are rarely misled in this, and do not wish to be led on a false path.

We do not expect that our own expression of honest conviction, and desire for honest and sound treatment will find much favor with the Grits, but we are sure that we now say to the

Live Stock Market.
MONTREAL, Oct. 10.—The cattle trade is still going on. Half-bred yearlings are still being made, but the market is not so active. North-west cattle are now on hand, in two lots being now at the O. P. yards. The market on the other side does not show any improvement. Some of the knowing ones say there will be an improvement in the near future. It is not likely that they will back their opinions by making shipments. They base their opinion on the fact that the farmers in the West have just finished their harvesting. This is a new position to know what number of cattle will be brought to market. This is a new hope, but there may be some grounds for their claim. The local market is without any new feature. On this morning there were about 600 head of stock. Of the 16 lots of butchers cattle offered about 100 head were sold, the remainder going to the retail market. The 500 head offered were sold at 5 to 10 cts. The rest of the cattle were sold at 10 to 15 cts. The supply of cattle was not so large, and the price was lower than last week. The top price was 31 to 32 cts. The average quotation for 10 cts. was 31 to 32 cts. The average quotation for 10 cts. was 31 to 32 cts. The average quotation for 10 cts. was 31 to 32 cts.

What She Said.
Mrs. B. Peck, E. 15th street, New York City, visited Canada last year, and had the good fortune to pick up a medicine which not only cured her, but her neighbors also. Writing the manufacturers of Nerliss she says: "I bought three bottles of Nerliss for my wife in Canada and treated my mother-in-law to some of it, and all think it the best medicine for internal or external use I have ever used." Nerliss deserves such a commendation, for it is a most powerful, penetrating, and certain remedy for all kinds. Take no substitute.

Montreal Horse Market.
The horse market has been very quiet during the past week, and sales have been limited. A few lots of carriage and saddle horses were shipped to the West, and a few more were demanded for choice animals. There is some inquiry for heavy draft and light carriage horses, but the market is not so active. The supply of horses is not so large, and the price is lower than last week. The top price was 31 to 32 cts. The average quotation for 10 cts. was 31 to 32 cts. The average quotation for 10 cts. was 31 to 32 cts.

Cheese Markets.

Stomachics are of proven value.

The delicate constitution, the stomach,

the human mind, and those who complain

of indigestion, great neuralgia or worry, all

suffer more or less from it. It is the great

remedy of a worried brain, and to get sleep

of the stomach from all impurities with a

C. A. Livingston, Plattville, Ont., says: "I

have much pleasure in recommending Dr.

Thomas' Filigree, from having used it myself,

and having used it for some time. In my

own case I will say for it that it is the best

remedy I have ever tried for dyspepsia."

SHELLVILLE, FRIDAY, OCT. 14.

THANKFUL FOR SMALL MERE.

It is remarkable that the Opposition, held up at every point, has been able to make any kind of a fight. Yet in 1887 and 1891 the Government narrowly missed the Cassin fire arm, with all their fire arms. A most remarkable feat.

In the general election of 1887, the Liberals "narrowly missed" defeating the Conservatives by 45 to 50, and in 1891 the Conservatives "narrowly missed" defeat by a majority of 30, increased by the by-elections to one of nearly 1800.

GOOD ADVICE.

"Put it at home down"—It is wisdom to learn from an essay.

Three things the Liberals need to make more possible at the next election are—

1. Have the preparation of the lists.

2. Minimize the cost of the campaign.

3. Have an organization sufficiently good to get the full vote on election day.

All of these things can be done, really if a beginning is made now.

It is the duty of the party of a campaign with election day a month away, more than it is of the party of a campaign with election day a year away.

Sound advice is not as applicable to the Conservatives as to the Liberals. Our contemporary has forgotten the old proverb, "sauce for the goose is sauce for the gander."

Corbett vs. Moxam.

The Hon. Mr. Justice in the Assize Case Charge is a grave assault. The prosecutor and Joseph Johnston were called as witnesses for prosecution. Upon this evidence I reduced the charge to common assault, and permitted Moxam to testify.

The evidence of Corbett and Moxam is entirely contradictory. If I were to give Corbett's evidence alone, I should certainly convict Moxam. If I had only heard Moxam's testimony I should have decided in his favor, because he not only showed that Corbett might have tried to approach him with a knife, but also showed that Moxam was physically disabled to do so, and that Moxam was not only a very substantial man, but also a very substantial man.

Justification for the assault committed by Moxam, Moxam not only swore he was first assaulted, but he swore to most abusive language being first used by Corbett and Moxam, and relying upon the testimony of Johnston, I am compelled to say that Johnston's testimony supports Corbett's on this point, by saying that Moxam was by the side of the weapon, with the breadth of the weapon interlocking between the two men.

If this was true, Corbett could not have first assaulted Moxam. On the other hand, it is somewhat difficult to believe that Moxam could have reached Corbett's head with the stick, from the position which the two men occupied. However, I feel bound by the evidence, as I feel bound by the evidence, as I feel bound by the evidence.

The one point upon which the two men agreed was that after the first blow Corbett was, in my opinion, satisfied for all that occurred subsequently—his might have gone away, he was warned by Moxam that if he used the stick he would defend himself. If he used the stick he would defend himself.

He went to Moxam, and for these reasons, after he heard the evidence, I limited the enquiry to the conduct of the parties eventuating in the first blow. Corbett was the aggressor, he went to Moxam, he commanded him to follow him to his employer, which, if he had told, probably would result in a fight. It was a charge calculated to annoy and excite Moxam, who repudiated the charge. Corbett repeated the charge, and he could prove it. What he said to Moxam was that Moxam had told the truth, that he had told the truth.

Moxam retorted with some inflammatory language, and Corbett replied with an equally inflammatory language. Moxam used under intense excitement, and which seems to be confirmed the most disgraceful epithet that can be hurled at a man. Corbett called him a "son of a dog," and then Moxam struck with the stick a blow, which bruised the scalp, and made a very small incision from which the blood flowed.

What followed I do not consider, for the reasons assigned. Corbett made statements declared by Moxam to be untrue, and then repeated them. When called a liar, he responded with the expression above mentioned. Moxam was in a measure justified, but he ought not to have struck the stick or weapon, because a severe injury might have been inflicted. I fine \$100, and \$25 costs to be paid forthwith, in default ten days to jail.

It is a singular fact that the chances of an article should even temporarily rise and fall, and yet there was the experience of Messrs. Tuckers & Son in the introduction of their new famous "Myrtle Navy" tobacco. People who had been in the habit of smoking the finest Virginia tobacco, could not for a time be made to believe that they were offered the same article at about one half the old price, and it was only by slow degrees that they were induced to put the question to the facts.

When they did adopt that test however, it never failed to satisfy them, but they were slow to do so.

Mr. J. Baker is to lecture to the Young Men's Christian Association of Port Hope on Saturday.

A letter received from Mr. James Johnston, late editor of the Ontario Freeman, states that he was about starting from London for a three weeks' visit to Ireland, which he will call for Canada. He expects to reach Ontario about the middle of November.

A Tremendous Trade. Notwithstanding that Saturday was a warm day and not favorable for a clothing sale, the Oak Hall was crowded with customers. People do not crowd into a store and pleasantly make big purchases, if the price are not low. The same complaint about the times being dull, and low prices for nearly everything they sell, but when they see how low the Oak Hall can sell them the clothing they have to buy, they go home quite satisfied that this is not a bad day for them.

Have You Thought of It? For four thousand years or more the corn, for grain, suffered, and fumed about the corn, for there was no positive relief—no certain and reliable relief. WHO PAYS THE BILL?

Mrs. Mills of Burton to test no

Editor.

Mr. Hamilton's stock and more directed by the government, when it is made, returns to the government.

We say the following from the *West* Free Press, Sept. 20th: The Mills estate is now Mr. Stewart's, for a year of Moxam, who emigrated to Montreal, and who was a partner in the Mills estate. Mr. Stewart is a daughter of Mr. Kisha Langman, of this city.

Free Press readers will remember that during the recent small pox scare through out the west, Mr. Mills, of Moxam's respectable merchant, succeeded to the small pox in this town. By order of the Manitoba Government the stock was ordered to be burned, everything being reduced to ashes. The general impression created at the time was that the Mills estate would make good to the widow and restore the amount lost by the burning of the goods, but such it would appear from advice to the *Free Press* from Montreal is not the intention of the government, as they refuse to pay anything whatever, and the widow is left without any compensation.

It has raised a business question which may find its way into the courts for settlement. A trade paper of Montreal has taken the matter up and comments as under on the case: "The Provincial Government immediately after the small pox scare, ordered that his whole stock was infected, ordered it to be burned, which was duly done. Now the Mills estate is now Mr. Stewart's, for a year of Moxam, who emigrated to Montreal, and who was a partner in the Mills estate. Mr. Stewart is a daughter of Mr. Kisha Langman, of this city.

The unfortunate man was in quite a solvent or even prosperous condition, his stock being worth \$25,000, making good book debts amounting to \$10,000, making a total of \$35,000, which he had in the hands of his customers. Not only has the stock been entirely destroyed, but his business books have been destroyed, and the record of his outstanding debts is lost and it will be difficult, if not impossible, to recover them. The loss of the stock is a heavy one, but the loss of the books is a heavier one, as it is to feel the assets which would have more than satisfied their claims, swept away, and that in such a way that they bear the whole taxation of a public good.

But even more and desiring of sympathy is the case of the man's widow, who is not only suddenly deprived of the bread winner, but sees her little property swept away, and she herself has to pay for a public benefit. The case has been laid, so it is stated, before the provincial Government, but they decline to recon the widow or the creditors for the destroyed goods, claiming that as the goods were infected, they were unmarketable, and therefore valueless. But this is not correct with a good proportion of the stock, as the goods and books could have been effectively fumigated and disinfected, and as a comparatively small sum would have been sufficient to cover the cost of fumigation, and the public ought to pay the cost. It is claimed that the government has declined to do so, as all that is generally permitted is the right to lease upon stock damaged by a public pestilence, and the proceeding may do in a sparsely populated district, but it would hardly be allowed in a town, where the loss of the stock is a heavy one, and the loss of the books is a heavier one, as it is to feel the assets which would have more than satisfied their claims, swept away, and that in such a way that they bear the whole taxation of a public good.

But even more and desiring of sympathy is the case of the man's widow, who is not only suddenly deprived of the bread winner, but sees her little property swept away, and she herself has to pay for a public benefit. The case has been laid, so it is stated, before the provincial Government, but they decline to recon the widow or the creditors for the destroyed goods, claiming that as the goods were infected, they were unmarketable, and therefore valueless. But this is not correct with a good proportion of the stock, as the goods and books could have been effectively fumigated and disinfected, and as a comparatively small sum would have been sufficient to cover the cost of fumigation, and the public ought to pay the cost. It is claimed that the government has declined to do so, as all that is generally permitted is the right to lease upon stock damaged by a public pestilence, and the proceeding may do in a sparsely populated district, but it would hardly be allowed in a town, where the loss of the stock is a heavy one, and the loss of the books is a heavier one, as it is to feel the assets which would have more than satisfied their claims, swept away, and that in such a way that they bear the whole taxation of a public good.

GOUGH'S.

Gough downs 'em all.

It's a plucky proceeding to sell at prices so out of proportion to their values. In our case the disproportion is all in favor of the buyer, but our courage is equal to the emergency. It is sometimes desirable in the course of trade to remove the plumage from competition and reveal how deceptive things may be in the matter of size. We always sell our goods at their naked value, on the idea that quick sales, small profits and a large business are in natural accord. We have many surprises in store for you to enjoy, which will render it necessary to visit our store and inspect the many new things we are offering.

See Our Price List:

\$3.50 Buys a HEAVY OVERCOAT , Tweed Lined.	\$1.50 We start our boys' overcoats at \$1.50, but the boy may be a jewel and deserves something better. We have everything in between up to \$6; the latter fit for any boy, at any time, in any place.	25c. For 75c. Gough will sell you a suit of Under-Clothing. For 25c will sell, and do sell, heavy wool Shirt or Drawers, man's size. For 37½c. we sell all-wool Shirt or Drawers, worth by the case in regular Trade \$4.50 per dozen.
\$4.50 Buys a heavy Canadian all-wool overcoat, ten different patterns.	\$2.75 It is a well known fact that Gough sells a man's suit for \$2.75, but the agitation of the day among clothiers is how he can sell a beautiful all-wool Auburn Tweed, double-breasted suit, raised seams for \$7 when the cloth alone cost 80c. a yard, making the bare material \$5.60.	10c. 100 Dozen more of our noted All Wool Socks 10 cts per pair, not a chilblain in the whole lot of 'em.
\$5.00 Gives you your choice of overcoats that were sold for \$6, \$7 and \$8 wholesale.	\$10.00 Fine suits in Sack and Cutaways. Fine all-wool worsteds and Venetians in Sack or Cutaway Coats, with fancy worsted pants to match. Suits that tailors get \$20 to \$25 for, compare them with ours at \$10.	10c. \$10.00 Is the price we quote for our all-wool meltons, beavers, elysian, chevots and fine all-wool worsteds. Splendid overcoats.		\$1.25 Is our price for a good Sealotte Cap, sold by others for \$2.00. 35c. buys a good Corduroy Cap, men's or boys' sizes.

Curiosity is the most general as well as the most innocent fashion that actuates the human mind. To gratify those who may be anxious to know how we can make such extraordinary inducements, we make mention of the fact that the garments offered at a sacrifice in to-day's announcement, are part of the great \$30,000 manufacturers' stock we have just bought at 60c. on the dollar, and depend upon it we propose to make the next two months a "Waterloo" for our competitors. We have the snap, push and enterprise to lead our trade and extend in the face of all opposition. It is amusing to hear two-penny, half-penny dealers, who get their goods in by the wheel-barrow load, giving us free advertising every night. "Just fancy GOUGH selling a suit for \$10.00 and the customer wanting to trade it for a \$5.00 suit" down at oh! well it don't matter he is only howling because he is hurt, and mud throwing seems to be his forte, but what about our \$500 challenge, that we can sell goods as cheap as he buys them. He has never had the nerve or the back-bone to accept that yet and until he does we hope he will continue to give us free advertising. Remember in our whole-sale department we sell some of the best merchants in Canada, and if there is any manner of person not provided for on our grand list of Clothing we'd like to know it.

A Devastation of Values!

A SENSATIONAL MONTH OF BIG BARGAINS, AT

It's a Plucky Proceeding
and sometimes desirable, etc.

GOUGH'S.

Gough downs 'em all.

It's a plucky proceeding to sell at prices so out of proportion to their values. In our case the disproportion is all in favor of the buyer, but our courage is equal to the emergency. It is sometimes desirable in the course of trade to remove the plumage from competition and reveal how deceptive things may be in the matter of size. We always sell our goods at their naked value, on the idea that quick sales, small profits and a large business are in natural accord. We have many surprises in store for you to enjoy, which will render it necessary to visit our store and inspect the many new things we are offering.

See Our Price List:

- | | | |
|---|---|---|
| \$3.50 Buys a HEAVY OVERCOAT, Tweed Lined. | \$1.50 We start our boys' overcoats at \$1.50, but the boy may be a jewel and deserves something better. We have everything in between up to \$6; the latter fit for any boy, at any time, in any place. | 25c. For 75c. Gough will sell you a suit of Under-Clothing. For 25c will sell, and do sell, heavy wool Shirt or Drawers, man's size. For 37½c. we sell all-wool Shirt or Drawers, worth by the case in regular Trade \$4.50 per dozen. |
| \$4.50 Buys a heavy Canadian all-wool overcoat, ten different patterns. | \$2.75 It is a well known fact that Gough sells a man's suit for \$2.75, but the agitation of the day among clothiers is how he can sell a beautiful all-wool Auburn Tweed, double-breasted suit, raised seams for \$7 when the cloth alone cost 80c. a yard, making the bare material \$5.60. | 10c. 100 Dozen more of our noted All Wool Socks 10 cts per pair, not a chilblain in the whole lot of 'em. |
| \$5.00 Gives you your choice of overcoats that were sold for \$6, \$7 and \$8 wholesale. | \$10.00 Fine suits in Sack and Cutaways. Fine all-wool worsteds and Venetians in Sack or Cutaway Coats, with fancy worsted pants to match. Suits that tailors get \$20 to \$25 for, compare them with ours at \$10. | 10c. Buys a pair of good Web Suspenders. |
| \$6.90 Is our price for fancy worsted overcoats, bound, velvet collar and heavily quilted to the waist. | 50c. Buys as good a Shirt or Drawers from us as others charge 70c. or 90c. for | 37½c. Buys a good White Shirt, fit for any man's wear at home, business, church or town council. |
| \$9.00 Puts you inside of any one of 50 styles, in double-breasted, caputs, long caped, or made in double-breasted, with large collars. Fine overcoats, these. | | 49c. Gives your choice of ten different Top Shirts, heavy, strong, good, really all-wool. |
| \$10.00 Is the price we quote for our all-wool meltons, heavers, clysian, chevots and fine all-wool worsteds. Splendid overcoats. | | \$1.25 Is our price for a good Sealette Cap, sold by others for \$2.00. 35c. buys a good Corduroy Cap, men's or boys' sizes. |

Curiosity is the most general as well as the most innocent fashion that actuates the human mind. To gratify those who may be anxious to know how we can make such extraordinary inducements, we make mention of the fact that the garments offered at a sacrifice in to-day's announcement, are part of the great \$30,000 manufacturers' stock we have just bought at 60c. on the dollar, and depend upon it we propose to make the next two months a "Waterloo" for our competitors. We have the snap, push and enterprise to lead our trade and extend in the face of all opposition. It is amusing to hear two-penny, half-penny dealers, who get their goods in by the wheel-barrow load, giving us free advertising every night. "Just fancy GOUGH selling a suit for \$10.00 and the customer wanting to trade it for a \$5.00 suit" down at oh! well it don't matter he is only howling because he is hurt, and maul throwing seems to be his forte, but what about our \$500 challenge, that we can sell goods as cheap as he buys them. He has never had the nerve or the back-bone to accept that yet and until he does we hope he will continue to give us free advertising. Remember in our whole-sale department we sell some of the best merchants in Canada, and if there is any manner of person not provided for on our grand list of Clothing we'd like to know it.

MY FIRST PATIENT.

That been in my new lodgings for a week.

A week that had dragged itself along in an

endless array of days, everyone bringing to me

the same dreary and hopeless of an existence.

Behind the glass door of my next little

it is customary to assume the office of a

practising physician had shown for a week.

At the same time, the time had passed

recognition, and consolation room waited

with the dark curtains and straight black

to seek the advice and help of Dr. Max

WALL PAPER NOTICE

Last fall our sales in the Wall Paper Department were far in advance of any previous fall season, proving conclusively that our Canadian friends are adopting some of the customs of other countries.

The old way of papering in the spring, and in the spring only, is fast becoming a thing of the past.

People are praiseworthy for papering in the fall home is made attractive for the long winter and festive, and when Christmas and the holiday season is at hand your cheerful, pretty help in your windows is the loved one who have returned for a visit to the old home.

We have tried in various ways to contribute to this new order of thing, and instead of using a regular highly burnished turkey stage of things, all crowded into the gladeshiper sign we have tried to divide your attention to the fall season part of that which you have to do along with throughout April, May or June.

In order to induce you to make a change and paper now we will, for the next 30 days, give a discount of 10 per cent. on all Wall Paper purchases.

ORANGEVILLE, April 4th, 1892.

DE. L. A. BUCHER & Co.

DEAR SIRS:—Anti-Dandruff is evidently

giving satisfaction. I have used about half

the jar I bought from you on the 25th of

January last. I use it on my own family

and like it well. Can recommend it to all

who are troubled with dandruff.

Yours truly,

THOS. STEVENSON.

There is no secret or patent in the

production of "My Hair" which can

be produced by any manufacturer,

but no manufacturer could make it pay at

this price, unless he could purchase on a

large scale and sell on a large scale.

He could not sell below the present price with-

out a loss even if he could purchase on the

lowest advantageous terms. To get a large

market therefore, without which we could

have no inducement to go to, would be the

work of many years. That is the reason

why Messrs. Tinkett & Son have the com-

mand of the market, and they are wise

enough to know that they can retain it only

by keeping the price down to hard pan fig-

ures.

CITY COUNCIL.

The City Council met this evening at the

City Hall for the purpose of considering

the report of the City Engineer.

A regular meeting of the City Council

was held last night, Mayor Hogg in the

chair. Those present were Ald. Smith,

Lindsay, Hamilton, Wainwright, Hogg,

Lacombe, Lathrop, Foster, Doyle, Hay,

Mills, McKinnon, Galt, Fowell, Shaw,

Tisdale, and the Mayor.

The minutes of previous meeting were

read and approved.

A communication from a number of re-

sidents of Belleville asking for an ad-

ditional oil lamp on that street—Re-

ferred to Water and Gas Committee.

A letter from John Lint asking to be

reimbursed for damages caused to his pro-

perty by poor drainage.

A communication from the W. C. T. U. giving a

detailed statement of the financial stand-

ing, with a record of each year's dona-

tions, and a communication from a number of

merchants on Front street, objecting to the

movement being made to alter the space

of 18 inches for merchants to display their

wares, claiming that it would tend to

cause accidents and make the street un-

pleasant.

The Council went into committee of the

whole on reports. Ald. Fowell in the chair.

The Market Committee recommended

the erection of a new oil lamp on the

sidewalk, and the Council accepted, it being

the lowest.

Ald. Diamond objected to its erection

on the ground that it would prevent

snow and ice from gathering at the ap-

proach, and that it should be sent

back for reconsideration.

Ald. Hay thought the hood over the

new would remedy all the bad effects

of the dropping of rain.

The matter was referred back.

The Industrial Committee recommended

the exemption of taxes for 10 years to

Cape Breton for the manufacture of wire

nails, upon terms heretofore to be agreed

upon by the Council.

The By-Law Committee recommended

the granting of 18 inches for merchants to

display their goods in front of their stores.

whole on reports. Ald. Fowell in the chair.

ON MONDAY, April 4th, 1892.

DEAR SIR,—Anti Dandruff is evidently giving satisfaction. I have sold about half of the gross I bought in on the 23rd of January last. I use it on my own family and like it well. Can recommend it to all who are troubled with dandruff.

Yours truly,

THOS. STANFORD.

There is no secret or patent in the production of "Myrtle Navy" tobacco, which can be produced by any manufacturer, but no manufacturer could make it pay at this price, unless he could purchase on a large scale and sell on a large scale. He could not sell below the present price without a loss even if he could purchase on the lowest advantageous terms. To get a large market therefore, without which we would have no inducement to go on, we have made a large market. That is the reason why Messrs. Tuckett & Son have the command of the market, and there is no one enough to know that they can retain it only by keeping the price down to hard pan prices.

HERE WE ARE AGAIN, LIELY AS EVER!

G & H!

The Great One Price Clothier's Stock of OVERCOATS and MEN'S FALL SUITS are now Complete and the Prices Challenge Competition!

The following will give the reader some idea of the magnitude of our stock and extraordinary Prices:

TWO THOUSAND OVERCOATS!

In 150 different patterns, embracing all the latest productions of the looms, ranging in prices from \$4.00 up. No enumeration here would give an adequate idea of their cheapness, but no one should buy an Overcoat until they see my Stock, as they are the most elegant and Best Made Garments ever shown in the County of Hastings. Remember 2000 OVERCOATS in 150 DIFFERENT STYLES TO SELECT FROM.

OUR MEN'S SUIT DEPARTMENT.

Consists of 3000 SUITS in almost every style and finish, and all guaranteed, made equal to the best custom work. The question is asked how Gough sells these goods cheaper than other dealers. Well, it is wonderful how we do, but we do, and as a proof of it we challenge an inspection and comparison. In this department our Prices Range from \$3.50 per Suit up. In our

BOYS' AND CHILDREN'S DEPARTMENT.

We stand unique, and fathers, mothers, guardians and heads of families should go no place else for their Boys' Clothing. The Prices in this Department are too small to mention. Our

FURNISHING GOODS AND HAT & CAP DEPARTMENT.

In these Departments I invite the particular attention of intending buyers, as a guarantee to save them fully 25 per cent. on the lowest prices they can touch elsewhere. In a word, when I opened here six months ago, I promised the people of Hastings a great revolution in the prices of clothing, and in thanking the public for their past liberal patronage, I leave it to them as well as my competitors if I have not kept my word. My tables now being loaded down with beautiful NEW FALL GOODS, until they are groaning under the weight, I will continue to merit that same liberality by regulating the prices in the future as have in the past by my HONEST SQUARE, ONE PRICE SYSTEM. Remember I am the only STRICTLY ONE PRICE CLOTHING HOUSE in the country, and I will cheerfully refund the money to purchasers if they are dissatisfied, or goods and prices can be beaten elsewhere. Call and see me, it will be a pleasure to show Bargains and quote prices, whether you wish to buy or not.
